

NEW FULL CORE CT SCANNING & DENSITY MAP

Full Well Density Maps & CT Scanning starting at just ***\$150/meter!***

PERM Inc. is excited to announce a **new non-invasive, non-intrusive** FULL WELL core characterization service for obtaining density profiles. The entire service is performed **WITHOUT taking core out of the core tubes** (and core can be frozen).

It's fast, it's convenient and it's a permanent record of the core with quantitative data that is useful for years to come.

FULL CORE CT SCAN & DENSITY PACKAGE

- Core Images at 0° and 90° for Entire Well
- Density Map for Entire Well
- LAS file.
- Turnaround ~1-2 days

Starting at Just ***\$150/meter!***

More Advanced CT Scanning is also available, including full 3D reconstruction, density, porosity, mineralogy & fluid saturations.

Contact Us Today at 587.794.3364 to enquire about PERM's new core scanning services.
